

**Features :**

1. Film sealing, cutting and shrink in one operation.
2. A very economical packaging machine for small amount productivity.
3. User POF, PVC as packaging materials.
4. Two function for option: one is only seal cut, another is both seal cut and shrinking.
5. The hot air is kept in a small heating room, which save power consumption greatly.
6. Wrapped perfectly with strong hot circulating airflow.
7. Shrinking process can be observed through transparent cover.
8. Widely used in the external packaging of beverage, gift, hardware, cosmetics and plastic, etc.

**Specification :**

Model	PFM400
Power	220V/Single phase/50-60Hz
Heater power	4.5KW
Capacity(pack/hour)	400-600
Max sealing size(L*W)	L:400*W:400
Machine size(L*W*H)	700*640*1120mm
Machine weight	168kg
Film material	POF,PVC
