

PLST-4050BN/PLST-4060BN

PLST-4050DN

Features :

1. The machine combines sealing device with shrinking device
2. Pneumatic type sealing. It can be also be switched to manual type sealing
3. This machine is designed with automatic conveyor. Product will be delivered into shrink tunnel automatically after sealing & cutting process.
4. Conveyor height can be adjusted. Its sealing height can be adjusted depending on product size.
5. Hot air cycling tunnel.

Features :

1. Sealing & Shrink Packaging Machine Combination.
2. Electric Magnetic designed
3. This machine is designed with automatic conveyor. Product will be delivered into shrink tunnel automatically after sealing & cutting process.
4. Sealing time and conveyor speed are adjustable.
5. Film dispenser with sliding picker makes replacing film roll easy.

Application :

- Broad fields of applications for packaging of any item ranging from food stuff to industrial products.

Specification :

Model	PLST-4050BN	PLST-4060BN	PLST-4050DN
Machine Size (mm)	2600(L) x 760(W) x 1580(H)	2700(L) x 760(W) x 1580(H)	2150(L) x 820(W) x 1300(H)
Sealing Size (mm)	500(L) x 400(W) x 200(H)	600(L) x 400(W) x 200(H)	500(L) x 400(W)
Tunnel Size (mm)	800(L) x 400(W) x 200(H)	800(L) x 400(W) x 200(H)	700(L) x 450(W) x 200(H)
Packaging Height	5~200 mm	5~200 mm	5~220
Conveyor Height	800 mm	800 mm	800mm
Power Supply	3φ, 220V/380V	3φ, 220V/380V	1φ, 220V/240V
Watts	11 KW	11.5 KW	7.8 KW
